Summer Release
Dx Year 2021 "The Mash-Up" Exercises
EOD, Summary Stage, Grade, and SSDI
For Breast, Prostate and Colon
July 7, 2021

For the Dx Year 2021 changes to EOD, Summary Stage, Grade, and SSDI, we created a "mash-up" coding form to cover those coding systems. (For Dx Year 2018, we had separate forms for each of those coding systems.)

There is a case scenario (the Click here link) and we provide the read-only coding for site, histology, and behavior to ensure that the correct data items and drop-downs are retrieved from the SEER*RSA. These are the same drop-downs vendor software will display to registrars. However, the page that displays before the coding form provides links to the various relevant manuals which you should also have open and available to complete these exercises.

After you complete the coding form, click the Score Now button to compare your coding to the preferred answers and detailed rationales for each data item.

Quick reference on how to access new Dx Year 2021 exercises and the CE report

To access the exercises, click on Training and then Coding – CEs to display the page with the test menu. Click on the + sign to expand the Dx 2021 EOD line to display the sites.

To print a report demonstrating completion of the CEs, click on Reports Menu and then View Excel Reports.

Click on the + sign to expand **CE Reports** section and click on **Dx Year 2021 EOD, Summary Stage, Grade, SSDI** row. Change the start date to a date prior to when you began this material, such as 3/1/2021 and change the end date to today's date.

If no results are returned, you may need to retake a specific exercise where you originally scored less than 70%. We recommend waiting at least two days before retaking an exercise so that you know you are testing your knowledge of what you learned from your first attempt versus your immediate short-term recall of reading the rationale.

We will release additional sites quarterly
