2023 Annual SEER Workshop
Advanced Topics for Registry Professionals
December 5-7, 2023

The *free* workshop is open to **all** cancer registrars and will be held virtually on Tuesday-Thursday, December 5-7, 2023 from 12:00-4:30 PM EDT. The goal of the workshop is to expand registrars' knowledge of several important topics including in-depth coding for LAMN/HAMN, extra- and intrahepatic bile ducts, and oropharyngeal cancers and more. There will be presentations from subject matter experts including surgeons, pathologists, and oncologists.

Registration for this workshop opened October 3rd and ***closes on November 20th***. If you have not already signed up, the workshop registration link is available through the NCRA's website at https://www.ncra-usa.org/Education/2023-SEER-Workshop-Dec-5-7.

Participants are asked to ***complete coding exercises by 11/10/23*** for **Brain** (site/histo/behavior), **Other Sites** (site/histo/behavior), and **LAMN/HAMN** (EOD/Summary Stage/SSDI) in SEER*Educate in order to assist Carolyn Callaghan, one of the workshop speakers, in preparing her presentations. She plans to highlight the observed challenges associated with interpreting medical transcripts to achieve coding accuracy and consistency when applying rules and guidelines outlined in the manuals.

As of Friday, 10/27/23, nearly 1,600 have registered for the upcoming workshop. We want to thank all who completed the coding exercises. If completing the cases prior to 11/10/23 doesn't work for your schedule, please try to complete them prior to the Workshop so you get more benefit from the sessions covering those topics. You will earn CEs, whether you complete the cases before or after November 10th, but completing them before the 10th will allow Carolyn to better focus the presentations. There isn't enough time to walk through each case during the workshop. Instead, she will focus on explaining the trends that resulted from the participants initial responses.

For more information about the coding cases, log in or sign up (it's also free) at **SEER*Educate** today by visiting https://educate.fredhutch.org/, select the **Training** tab, and click on **SEER Educational Workshop**. By completing the coding of these case for the workshop, the following number of Category A CEs have been approved:

NCRA Program Recognition #	SEER Workshop - Advanced Topics for Registry Professionals	Number of cases	CE Ending Date	Category A CEs Approved
2023-194	Brain (site/histo/behavior)	15	5/30/2024	2.5
2023-195	Other Sites (site/histo/behavior)	20	5/30/2024	3.0
2023-196	LAMN/HAMN (EOD/Summary Stage/SSDI)	5	5/30/2024	2.5

If you have questions about accessing the exercises or printing the CE listing, please Contact Us.
