SEER*Educate Training Modules Released
Fall 2023 Update

Over Two Million SEER*Educate Training Sessions Completed!

In the words of Malcom X, "Education is the passport to the future, for tomorrow belongs to those who prepare for it." The SEER*Educate "passport" has been used over 2 million times since this application was developed. Currently, on average over 1,000 training "trips" are completed daily by students and experienced registrars in SEER*Educate. Clearly, there is a lot of "Learn by Doing" going on out there!

We are grateful to those who have chosen to use this application to meet some of your professional and team training needs, to those who actively encourage others to consider incorporating SEER*Educate modules into their local in-person training meetings, and to those who provide suggestions to improve the current content documentation. We wouldn't be funded to do what we do unless we could demonstrate the need for such training. The current level of daily usage is a strong indicator of that need.

While we say thank-you to those responsible for the past 2 million uses, we are also looking forward to providing a few million more training opportunities to everyone in the future.

2023 Virtual SEER Workshop Exercises Available in SEER*Educate

Save the Date!
SEER Workshop
Dec 5-7, 2023
It's free & virtual!

SEER plans to open registration the first week of October for the virtual SEER Workshop – Advanced Topics for Registry Professionals being held December 5-7, 2023. The agenda includes the following topics covered by Carolyn Callaghan, CTR: Brain (site/histo/behavior), Other Sites (site/histo/behavior), and LAMN/HAMN (EOD/Summary Stage/SSDI). The corresponding case coding exercises for these presentations are available now in SEER*Educate. Please complete them by November 10th so that issues identified by actual coding results can be covered during the workshop.

These exercises are open to both workshop participants and those who are unable to attend but who are looking for free Category A CEs.

Final Four
Mash-Ups

These are the final 4 primary sites that make up the "Mash-Up" coding practice series. There is a total of 295 cases in this series which is intended to assess the coding accuracy for the Dx Year 2021-2023 changes to EOD, Summary Stage, Grade, and SSDI. The final 4 new sites each have 5 practice cases to assess one's personal coding accuracy **and** the consistency in applying the coding guidelines among an entire staff. This coding practice series qualifies for **free Category A continuing education (CE)** credits approved by NCRA. The number of CEs awarded is based on the average time it takes to code the cases and review the answers and corresponding rationales.

The number of **free Category A CEs** awarded by NCRA for completing any training module discussed in this announcement is indicated on of the grids below.

There are a total of **17 free Category A CEs** available for this release. The Program Recognition numbers to use when preparing your biannual CE submission are also provided to facilitate completing the NCRA documentation required to maintain your CTR credential.

NCRA Program Recognition #	Program Title – Dx 2021-2023 EOD, Summary Stage, Grade, SSDI	Number of cases	CE Ending Date	Category A CEs Approved	Date Released on SEER*Educate
2023-044	Gallbladder	5	12/31/2026	2.0	6/26/2023
2023-045	Major Salivary Gland	5	12/31/2026	2.5	6/26/2023
2023-046	Penis	5	12/31/2026	2.25	7/17/2023
2023-047	Perihilar Bile Duct	5	12/31/2026	2.25	7/17/2023

NCRA Program Recognition #	SEER Workshop – Advanced Topics for Registry Professionals	Number of cases	CE Ending Date	Category A CEs Approved	Date Released on SEER*Educate
2023-194	Brain (site/histo/behavior)	15	5/30/2024	2.5	9/15/2023
2023-195	Other Sites (site/histo/behavior)	20	5/30/2024	3.0	9/15/2023
2023-196	LAMN/HAMN (EOD/Summary Stage/SSDI)	5	5/30/2024	2.5	9/15/2023
